Why We Recommend NuVet Plus for Our Puppies

A Message From Corner Stone Bernese Mountain Dogs

Dear Puppy Families,

As responsible and dedicated breeders, one of our greatest priorities is ensuring that every puppy we raise has the healthiest and happiest start possible. Our commitment to our puppies doesn't end when they leave our home and join yours. We genuinely care about their lifelong health, happiness, and overall well-being.

That is why we recommend **NuVet Plus**, a nutritional supplement that can be incorporated into your dog's daily wellness routine.

Why NuVet Plus?

NuVet Plus is a nutritional supplement formulated for dogs that contains a combination of vitamins, minerals, antioxidants, and other ingredients intended to complement their everyday diet.

As breeders of Bernese Mountain Dogs, we understand how important proper nutrition is, especially during the critical stages of growth and development. Bernese Mountain Dogs are a large breed, and providing appropriate nutrition throughout their lives is something we take very seriously.

Here are some of the reasons we recommend considering NuVet Plus:

1. Nutritional Support

NuVet Plus provides additional vitamins, minerals, and other nutrients that contribute to normal bodily functions. We believe it is important to pay close attention to the nutritional needs of our puppies as they grow and mature.

2. Immune System Support

A healthy immune system is important throughout a dog's life. NuVet Plus contains nutrients, including antioxidants, that play a role in normal immune function and help protect cells against oxidative stress.

3. Supporting Overall Wellness

From puppyhood through adulthood and into the senior years, we want our dogs to have the best possible quality of life. A consistent wellness routine that includes proper nutrition, exercise, preventive veterinary care, and appropriate supplementation can help owners stay proactive about their dogs' needs.

4. Long-Term Health and Care

Bernese Mountain Dogs are a breed we love dearly, and we recognize that they can be predisposed to certain hereditary and age-related health conditions.

While no supplement can prevent genetic diseases, cancer, hip dysplasia, or other serious medical conditions, we believe that taking a thoughtful approach to nutrition and preventive care is an important part of responsible dog ownership.

5. Our Commitment Doesn't End at Eight Weeks

When you bring home a puppy from Corner Stone Bernese Mountain Dogs, you become part of our extended family.

We spend countless hours researching nutrition, health practices, genetics, and responsible breeding because we want our puppies to have the best possible future.

Our recommendation of NuVet Plus comes from our desire to share nutritional products and wellness practices that we believe are worth considering as part of a comprehensive care routine.

Is NuVet Plus a Replacement for Quality Dog Food?

Absolutely not!

We strongly believe that a high-quality, complete, and balanced dog food appropriate for large-breed growth is the foundation of proper nutrition.

NuVet Plus is intended to be a supplement, not a replacement for a balanced diet, veterinary care, appropriate exercise, or routine health screenings.

Because puppies have specific nutritional requirements, we encourage every family to discuss supplementation with their veterinarian to ensure it is appropriate for their individual dog and does not result in excessive intake of certain nutrients.

Why We Share This Recommendation With Our Puppy Families

We want every family to feel educated, supported, and confident when making decisions about their puppy's care.

Our goal is never simply to raise beautiful Bernese Mountain Dogs. Our goal is to raise puppies with a strong foundation and help their families continue providing thoughtful, responsible care throughout their lives. We believe that the little decisions we make each day regarding nutrition, exercise, preventive healthcare, and overall wellness can contribute to a dog's quality of life.

At Corner Stone Bernese Mountain Dogs, our puppies are not just dogs. They are family. We want each and every one of them to live a happy, comfortable, and fulfilling life surrounded by the families who love them.

Thank you for trusting us, supporting our breeding program, and allowing us to be part of your puppy's journey.

With love and appreciation,

Corner Stone Bernese Mountain Dogs – Shelby & Philip Zehr
